IF Gen. John E. Wool, and suite, are at the Irving House. It is said that the General is making a push for the Presidency, and that he is now engaged in visiting different sections of the country, for the purpose of concentrating the efforts of his

THE ALLEGHANIANS are to sing at Amherst College, on Wednesday, July 2d-having been engaged for the occasion by the students of that

The Spanish war steamer Pizarro, notorious for her connection with the first Cuban Expedition, arrived at this port yesterday.

NIBLOS .- This charming place of resort still attracts the majority of strangers in the city, Mr Henry Placide, the sterling American Comedian, with Mr. Burton and his Chamber-st. Company, appear this evening, with Blake, Lester, Mrs. Wallack, &c. in Colman's standard comedy of the Poor Gantleman.

CONTRADICTION .- The Washington Republic denies that the Administration has taken measures to establish a Protectorate with England and France over the Central American States, although it supposes it to be true that an earnest effort is making to settle the questions that disturb the republics which occupy the Isthmus.

To It is said that Mayor Kingsland will sign the Sixth and Eighth Avenue Railroad bills, and the bill for the Enlargement of the Battery We hope this report is true, for we have been fearful that evil counsels would prevail and that his Honor would be induced to veto the bills alluded to.

THE HARLEM EXTENSION.—Preparations are being made by the Harlem Railroad to extend the track of their road, to the southern extremity, in accordance with the permission granted by the city authorities in February last. The track is to be laid with the Russ pavement, and the rail will be of a new and improved pattern-so formed as to render it impossible for a carriage or cart to become wedged Materials are being brought to the ground, and the work will be rigorously prosecuted and finished as soon as possible.

Foreign Fruit.-There arrived at this port on Thursday two vessels from Palermo, having on board no less than fifty-five hundred boxes of Oranges and fourteen hundred boxes of Lemons.

-A schooner arrived yesterday from Eleuthera having on board thirty thousand Pine-apples.

Solar Oil.-We are pleased to bear witness to the achievement of a great triumph in the manufacture of this indispensable article, by means of which it can be sold on terms much lower than can pure sperm oil, white it will burn looses and give a clearer light, without crusting the wick This great desideratum is attained by the entire ab straction of all alkali after the oil has been refined. It will not even corrode Metallic Lamps, and for machinery it is invaluable and infinitely superior to sperm. We should think that in a short time it will supersede all other fine oils in the market. The cre dit of its invention and introduction to the public is due to Messrs. Smith & Burrell, oil manufacturers, Furman-st. Brooklyn, below Fulton Ferry

Immigration .- Since Thursday noon the following vessels have arrived at this port:

pondent of the Journal of Commerce says: pondent of the Journal of Commerce says.

The arrangements for removing "Pot Rock" and extinguishing the "Whiripool" were existed by concluded with Mons. Mallefert. Mr. Benry Grianeli gave his obligation to pay Mr. Maillefert five thorisand dollars between thousand dollars payable when the rock is removed to the depth of twenty feet, and three thousand dollars when it has been removed to the depth of twenty four feet. The committee pay him one thousand dollars when the work is removed to the depth of fifteen feet, and afteen hundred dollars in addition at the depth of twenty-soven feet, and a further sum of two thousand dollars when completed to the depth of thirty feet.

Will the Editor of The Tribune please publish the subjoined correspondence ference, I think, to a very important subject ! Should my friends prefer a good Dentist to the counterfeits so numerous in the profession, they will thank me for thus publicly pointing one out to thera-

New-York, July 11, 1850.

Dr. Wieting—Dear Sir: Hearing you make frequent and favorable mention of Dr. Clowes, of Hulsonest, (Removed to T. Eightheav, Admindon-squares), while fecturing here last Winter, I was induced to call upon him in reference to my teeth. That he is healthy leeth and clean mouths, all have discovered the source of many a rational pleasure, which may be looked for in vain elsewhere. By your representations, I was first directed in the way of attaining this good thing. Through you I think the blessing may best be extended to others, piense do me the favor to write out for publication your own experience in dentistry as practiced by Dr. Clowes, describe his manner of operating, explain his theory of theroughness, and point out to mean a suffering mortal the door of escape from a thousand ills.

Yours, with much respect.

J. H. Townsen, 70 Greenwich at.

Synaces, July 21, 1850.

J. H. Townsend, Esq.—Deer Syr. I am happy to learn that you, through my recommendation, employed Dr. Clowes to repair the teeth of yourself and family, and that he has succeeded to your entire satisfaction.

ployed Dr. Clowes to repair the teeth of your self and family, and that he has succeeded to your entire satisfaction.

I have always taken particular pains in my public lectures to dwelf upon the importance of giving great attention to the teeth, of alling up all the cavities before they begin to ache, and of removing them from the mouth as soon as they become so much decayed as to be irreparable. While thousands have feit the force of my remarks, they have been at a loss toknow who they could employ to do instice to their teeth, saying they had tried this dentist and that one, not unirequently at considerable expense, but in the course of a year or two, as a general thing, the cavities grew deeper and the filling came out. Having heard this compliant so much, I had simost come to the conclusion that the plugging of teeth, in the usual way, was a gross imposition on the public. At length I necidentally got acquainted with Dr. Clowes, and after patiently examining his work, made up my mind it was superior to any thing of the kind I had sever seen before. I employed him at once to fill a few cavities in my teeth, and was so much aleased with the result. I feit safe in recommending him to the confidence of my friends.

He makes it a point to do his work thoroughly, and never to fill a cavity unit he is fully satisfied he has entirely removed all the decayed portion of the tooth, if it takes a whole week to accomplish it. Having done this, he has the mechanical ability, if I may be allowed a judge, to plug the tooth in the most workmanlike manner. I have seen teeth that were plugged years ago by him, apparently looking as well as the day the work was done. I wish I could say as much of every Dentist.

I regard Dr. C. as a great benefactor to the public, and as a Surgeon Dentist, I think he has no superior in this country. Respectfully your obt servant.

[COMMUNICATION.]

EXCURSION TO RONKONEAMA LAKE, AND TO LAKELAND ON THE LONG ISLAND RAILROAD. Moses Maynard, Esq., President of the Long Island Railroad Company, with a party of gentlemen, land and Ronkonkama Lake on Thursday last.—Lakeland is a new settlement, with beautiful buildings and improvements. The object of the visit was mainly to see the result of cultivation on the new lands of the Island, on the line of the Raifroad—Among the party were Elilia Townsend, Esq., Dr. Brewer, Hon. Henry Meigs of the American Institute, R. I. Allen, Esq., editor of the American Agricultseide, C. M. Sogton, Esq., from New-York, and Alden J. Spooner, Esq., Rollin Sanford, Esq., Col. G. A. Brett and Dr. Peck of Brookiya. The whole party expressed great pleasure, and even astonishment, at finding wheat, tye, corn, garden vegetables, fruit and flowers, in fuxuriant growth, on land which, a short time since, was all wild and new. The most complete success has resulted in the cultivation of those lands. We shall refer to this again and give a full account of this interesting visit, which our space and and Ronkonkama Lake on Thursday last.-

Phartest—This institution, created by the Central Board of the United Trades, commenced its opera-tion two weeks since and is destined to become one of the most useful of recent undertakings for work-ingmen as well as employers. Its aim is to free the laboring men, as far as

possible, from the clutches of unfair speculators, and to find work for them at such a fee [10 cents] as is necessary to cover expenses. The employers have to pay, likewise, 10 cents fee for each hand they apply for, and it has been hoped that all those who have at heart the well-being of their fellow men will apply for the probability.

bave at heart the well-being of their fellow men will support this undertaking.

At the last meeting of the Central Board of Trales it was reported by the Delegate of the German Tailors' Association, that his Society had passed a resolution to give \$10 for the foundation of this enterprise. It was reported by the Cabinet-makers' delegate that this Society would pass a resolution to the same effect at its next meeting, and other delegates were invited to bring the subject before their Associations. It was finally resolved to lay the whole subject before the Industrial Congress and to invite all the workingmen's associations to do something in order to establish this institution on a firm and permanent basis. It is hoped that the beginning alone will require sacrifices, and that it will support itself in a very short time. For the Executive Committee.

We carnestly commend this undertaking to the

-We earnestly commend this undertaking to the support of both employers and workmen. If judiciously managed, and if proper interest is taken in it great benefits may be derived from it. Its authors have struck into a good path ; let them be encour-

FATAL ACCIDENT—A MAN SHOT AT A PAWNEROKERS IN CHARHW-ST.—Shortly before 12 o'clock yesterday morning, a man named John Scully, who resided at 294 Canal-st., called at the store of Henry & Mitchell Hart. 27 Chatham-st. for the purpose of placing in pawn a six barreled revolving pistol. On being questioned as to the pistol's being loaded, he stated that it was not, and requested Mr. Mitchell Hart to pull the trigger and satisfy lamsel. Mr. H. did so, poming it over the counter, when it went off, and a ball was lodged in the breast of Scully who, by an unsech movement, had placed himself directly in front of its muzzle. He fell to the floor, and was instantly killed. Information was immediately sent to the Coroner who, at once repaired to the store, where he found a large number of people congregated, and highly excited. Mr. Hart related the circumstances which caused the death of the deceased, and appeared to be almost delirious in consequence of the sad affair. Dr. John A. Lidell made a post mortem examination of the body and found that the ball had passed through the right oracle of the heart, which was, in the opinion of the physician, the cause of death. A Jury was empaineled and proceeded to the Coroner's Office, when the testimony of several persons who were in the store a few moments after than occurrence, was taken. No person was in the store at the time deceased was killed except himself and Mr. Hart. The testimony went to show that on the entrance of the winesses into Mr. Hart's store, he told them that the deceased was a stranger to him, that on Thurskay he called with the same pastol which he said was loaded, and was told by Mr. H. that he would not receive it until it was discharged. Deceased then went away with the pastol, and returned yesteriay, saying that it was not then loaded, &c., as stated above. Mr. Hart was then taken before the Jury and made his statement, which was to the same effect. The Jury rendered the following Verdict, viz. "That John Scully came to his death by a shot from a pastol FATAL ACCIDENT-A MAN SHOT AT A

ARREST OF A BURGLAR .- A man named Robert Jones was arrested at haif-past 4 o'clock yes-terday morning, charged with forcibly entering the store of Christopher Reinhard, No. 95 Essex-street, by unfastening the front door with a pair of nippers. He was caught coming out of the premises by officer Bogart, of the Tenth Ward, who arrested him. There was about \$4,000 words of goods in the store There was shout \$2,000 worth of goods in the store and his purpose was, without doubt, to appropriate as many of them as possible to his own benefit He was locked up by Justice Mountfort for examination.

SUDDEN DEATH .- Thomas Downing, residing in Forty-fourth-st, near Sixth-av died sudden-ly at his residence, yesterday morning. Coroner Geer was notified, and will hold an inquest this

GREAT DISCOVERY.—A New Discovery, by Horace H. Day, of a nice Distinction of colors.—The Liability of the Infringer Changed by a Change of Volor.—Color a Feature as Important as Stretchiness in Rubber—India Rubber Patents Admitting of Colorable Erasums, and Therein an Exception to the General Rule of Patent Lord.

The question is often asked why florace it. Day has again commenced infringing on Goodyear's patents, after having, under his own hand and seal, acknowledged their validity by paying five thousand dollars for past infringements and for a license to work under them, and by agreeing to stamp the goods made by him. "Goodyear's Patent." and how he is able to carry on the defense of so many and such expensive law suits."

we answer, first, it is Day's fondness for litigation

cannot be far from forty—enough to ruin any manthough successful.

The lawsuits by Goodyear against Day embrace
three separate and distinct patents, each one of which
is indispensable in the manufacture of vulcanized
rubber. Each one of these patents must be infringed
or the business be abandoned. Day is, therefore, an
infringer on each of these three patents, and a verdiet against him upon one patent will be as fatal as a
verdict upon all three.

The patents which he neknowledged the validity
of, and which are indispensable in making vulcanized or metallic rubber, are dated, one February 24,
1839, for the use of suplaur in connection with fadian
Rubber, the other, June 15, 1834, for metallic rubber,
reissued Dec. 25, 1839, the validity of which was also
established in a cause between Goodyear and Day,
in the United States Circuit Court at Trenton, NewJersey, in September last, Judge Grier presiding.

We have heretofore stated that a verdict was taken,
and judgment entered up, against Seaver & Knowl-

How Day got hold of Goodyear's invention, whilst

How Day got hold of Goodyear's invention, whilst it was yet a secret, and before his application for a patent therefor, by hiring a man who had learned the secret in Goodyear's factory, and by paying him \$66 for divulging the same, we have heretofore proved under his own signature, by publishing two copies of Day's letters in our possession.

The third patent which Day is infringing is for dispensing with solvents in the manufacture of India Rubber, and is just as indispensable as either of the others in the profitable manufacture of India Rubber. The public are already aware that the validity of this patent was established by the decision of the commissioner of Patents, on the question of extension, and this decision was subsequently revised (together with the large mass of testimony takon in the cause. Day being the opposing party.) by the Secretary for the Interior, and the United States Attorney-General, and that decision was affirmed by both. Extracts from that decision was any expectation.

Does anybody believe that Day has any expectation of escape, on the trial of these causes, in September next, or that he will ever get a more favorable decis

There are about thirty beenses under Goodyear's patents. The simple fact that Horace H. Day is the only professed infringer in the United States, and that he is not countenanced or supported by a single manufacturer in the business, speaks volumes

against him.

Day has a license from Goodyear to make shirred goods, but all metallic, heated, or vulcanized rubber goods, not stamped "Goodyear's Patent," made by Day, are infringements, and all dealers in such goods, whether of white rubber or black rubber, pursoods, whether of white rubber or black rubber, pur-

BROOKLYN ITEMS.

Fires Yesterday .- About 7 o'clock yesterday morning, a fire broke out in the extensive oil factory of B. F. Pond & Co., at the foot of Degraw st., near Hamilton-av. Ferry. Srom the combustible nature of the contents, the flames could not be stayed, and the entire building was destroyed with the machinery. &c. By the exertions of the police and firemen, aided by the citizens, all the manufactured stock was saved, with the exception of that in the botlers for that days' work. A sloop, which was moored in the river, was slightly effected by the intense heat, but was towed off without suffering any damage. This is the second time since July last that these premises have been destroyed by fire, and it is but a few months since that the building was greatly damaged by the explosion of a steam boiler. The loss on this occasion exceeds \$1,000. Wholly in-

At the same time of the above fire, another one occurred in Kelsey's Ally. A frame dwelling house was discovered to be in flames, but was speedily extinguished by Engine Company No. 3, which was promptly upon the spot.

About three o'clock vesterday afternoon, a small' frame tenement, occupied by John Comey, in President-st., near Hicks, was burned down. The goods were all saved. Loss triffing

INCENDIARISM. - A base attempt was made to set fire to a new building in Atlantic-st., between Hicks and Willow, on Thursday night, but was luckily discovered in time to prevent any damage. The Pobeeman on that beat noticing an unusual light in the cellar of the house, made his way in and fo half a barrel of shavings, and a quantity of kindling wood, had been collected in a pile and set on fire by

FOURTH OF JULY .- A meeting was held at the Military Garden on Thursday evening to take into consideration the propriety of celebrating the coming Anniversary of American Independence .-Mayor Brush occupied the chair, and Gen. Underhill was chosen Secretary. Resolutions were adopted declaring it expedient to celebrate the day, and on motion, a Committee of Arrangements, consisting of nine, was appointed to carry out the objects of the

Markets... New-Obleass, Jame 18-P M.
The sales of Cotton during the last two days have been only 3,000 bales at unchanged prices, strict middling seiling at 5!. We are anxiously awaiting the Niagara's news. Frrients are duil, Cotton being taken for Liverpool at 5-16ths. Sterling Exchange is at 10!. Flour sells in small lots at 3 3! for Obio and 2 85 2 90 for sour. Perk branded M.O. is at 14 12!. Corn Merl \$3. Missouri sides fetch. 7! and Cincinnait \$2 28. Sales of prime keg Lard at 10 2010. Sugar is firm at 5! and Rio Coffee at 9!. Markets ... NEW-OBLEANS, June 18-P M

Breadstives and Grain are unchanged June in BREADSTUFFS and GRAIS are unchanged under the news per Amagara. Sales have been made during he week of 7,000 bags Rio Corrar at \$1.29). The tock is 25,000 bags.

Markets NEW-ORLEANS, June 20 The sales of Corros this morning were 1,000 bales. The Niagara's news has just been received, and produced no decided effect. The market continues firm. The sales of the week have been only 7,500 bales, the smallest business for many months.

Markets CHARLESTON, June 19. The sales of Corros to-day have been only 170 bales, and for the week 2,755, ranging from 6 to 8c. The market is firm. The week's receipts have been 4,000 bales, and the stock on hand amounts to 21,000 bales. Our quotations for midding fair are 91,200 cand fully fair 10c. Fariours to Liverpool are beavy, and vessels are filling at id. Business generally is very dull.

NEW-YORK LEGISLATURE. SPECIAL SESSION. SENATE ALBANY, Priday, June 20.

Mr. Breman presented a memorial from Wm. Whilock. Jr.; Mortimer, Lavingston, Boyd & Hincken, agents for 16 packet sips, sticting that under the operation of the act of 16th rebruary, 1824, they were permitted either to bond or pay as commutation for bonding. If bonds were taken, approved surelies were given, commutation was only given after a careful examination of the passengers, and then they should have to provide a sum for each passenger not less than one passengers, and then they should have to provide a sum for each passenger not less than one dollar, as the Commissioner of the Alins House should direct. In many cases after the examination, the Commissioners fixed the amount as high as ten dollars. Neither the State are taxed for high as len doilars. Neither the State are taxel for the support of passengers brought by the vessels of their respective lines. They have not, they state, been consulted on the subjects of the proposed amendments to the law, believing that these are radical defects in the organization of the law as at

They ask the appointment of a tribunal to collect the information proper for salutary action, and that before the report of the Committee no action be taken in the premises.

The memorial was referred to the Committee on Commerce and Navigation, on which his Williams is Charman.

An Act was reported to authorize the Brooklyn and smaica Railroad to increase their capital stock, and, then, in Committee of the Whole, Mr. Brown,

And, then, in Committee of the Whole, Mr. Brown, of the Ist District in the Chair, the Senate passed to the consideration of the Canal Enlargement bill Bric. Black River and Genesee Valley Canals. The first section, declaring the revenues of the Canals set apart for these purposes, was adopted, with a

5th, which srovides for the temporary investment by the Controller of moneys received for sales of the certificate. The 6th is as follows:

Size. 6. The Canal revenue certificates, issued according to the previous of this act, shall be received from any person, or association of persons, formed for the purpose of bunking, and intending to conclust banking operations under the layer of this State, for curvillating motes, to be delivered to such person or association, in the same manner, upon the same terms, and to the same extent as now proyuded by law, in respect to the public stocks issued by this State; and the said certificates may also be received from any insurance company, organized in any other State, in

persons who will bid or offer the highest prices therefor."

This drew fout a debate involving not only the merits of the amendments, but the subject of the resignation of the twelve Senators. Messys. Systypes, Cock. Gendes. Curris. Lyon, Biacock and Jongson participated in the discussion. In the course of the debate one of the Senators who had resigned said that he believed that, under the Constitution the Recenwe Certificates, if issued, would be paid.—That he admitted and proclaimed. The State of New-York would never take money from any man to be used in the promotion and advantage of her Public Works, without fully repaying him. There was no repudiation about New-York. He hoped the bill would be amended so as to provide that the State should get the highest price for them. Recess till 4 P.M.

AFTERNOON SESSION.

AFTERNOON SESSION.

monal expenses of collecting the scal tolls, supernitending the scal Cahais and keeping the same in rejairs, and to pay the Trassay in each year such sam as, may be required to defray the necessay expenses of the Government, as provided in section 3d, article the of the Constitution."

The Committee refused to adopt the amendment. Mr. Stanvors moved to add the following:

"But bests going from tide-water shall, when transporting either french to passengers, be exempt from the parameter of toll on any and all the Canais of the State." (Lost.) Mr. Bancors offered the following:

"Nothing in 3d Section shall be deemed to affect in any manner the power of the Legislature to after, reduce we release the payment of any tolks to the State. In properly transported on any Railread in this State. (Adopted.)—Adopted.)

VENEZUELA.

Discovery and Suppression of a Conspiracy-Fenrs of an American Invasion-Minister

to Washington. Correspondence of The Tribune Caracas, Saturday, May 31, 1851

Messas. Epitons: Since my last a conspiracy has been discovered, and at the present time the Executive has been invested for ninety days by the Council of State with the the 3d attribute of ex-It appears that a carbonari system had sprung up

with the object of changing our system of Govern ment. For the accomplishment of its purpose, i was necessary to get rid of the President, the other chief officers of the Republic, and in fact of all per sons who would not acquiesce in the new scheme The President of that Society was a General, name: Juxto Briceho. Vice President, T. Yllas. and Secretary, Jacinto Gutierrez, formerly Minister of Finance and Foreign Affairs. Very many others are implicated in this plot. some belong to the most respectable families of this city. The above named persons have been arrested, and an investigation is going on, which will most likely reveal many secrets yet undiscovered.

I might give many on dits, which, if true, would I might give many on this, which, if true, would prove most disgraceful to those connected with such a Society. I shall, in my next, be more explicit, as soon as the process in the matter has commenced. All the members of the consuracy not yet arrested, are flying to different piaces, learing the extraordinary powers of the President, who has now the right to interregate and cause to be arrested, even without proof, any person accused of being implicated in the matter.

proof, any person accused of being impulsates in the matter.

My opinion is that the whole affair will end in enoke. Certain authorities are either relations or trierals of the parties accused, and a pretty piece of work would be done by showing that the whole thing was an electionering scheme, although we have still two years to the Presidential election. That plot was discovered by one of the members, called Mauri. a retired officer, and afterward by another one, Felix Bosa. The most curious part of the story is, that each member had a factitious name while in assembly for instance, Mauri was called Join Adems, Bosa William Tell, and Gen. Briceño, I believe. Waskington. This will cause some merriment to your readers.

Reports are circulating relative to an expellition, which should have sailed from Baltimore some timeago, against Venezuela, and others against Coba.

which should have sailed from Baltimore some time ago, against Venezuela, and others against Cuba. Gen. Monagas has taken steps to prevent any landing on the coust. Margarita Island and Maracaybo have been reinforced with troops, and the militia called cut.

Mr. Lucio Pulido has been appointed Minister to Washington, to represent our Government. There is one thing rather hard for him: he does not speak or understand a word of English. Yours, F. L. S.

LATER FROM TEXAS. By the arrival yesterday of the steamship

Louisians, we have received Galveston papers to the 6th inst., together with our usual files from the inte-

6th inst., together with our usual files from the interior of the State.

The San Antonio Ledger of the 29th ult., has a lefter from the great El Paso train, dated May 31, near the mouth of the San Pedro. This letter says that, so far, the journey had been pleasant, though rougher times were anticipated. The grass along the route was miserable, and in some places it had fulled entirely. There had been little rain, and consequently water was rather scarce. No signs of Indians were seen, except a white flag, fastened to a tree, near the Lingua crossing. The letter says.

To-day we crossed the San Pedro. At present the water is but about ten inches in depth at the crossing, and is about thirty yards in width. This is a rocky, barren place, with scarce enough of anything growing to support the numerous insects that infest it, and which you are sure to find should you even sit down to enjoy a moment's rest. You have heard of the "Arkansas Traveler," I presume, and so have I, what is note I have seen him, in the shape of an old man and woman, whose united ages amount to one hundred and safeen years, with their little grandson, seven or eight years old, traveling to California by El Paso and Jack Hays's route, with no other company than the four poor miserable mules that draw a wagen made "Down East," as he tells me, twenty

years ago. When I mentioned to him the folly of two such aged persons making so dangerous a trip, he seemed to be astonished. Why could there be any danger, as he should accompany us to El Paso, and folks had told him that it was most to the El Darrado.

The Gairesten News of the 6th inst. mentions having seen a cotton boil an inch in length. It is a fair evidence of the advanced state of the cropon Trinity

A sudden rise has taken place in the Colorado A sudden rise has taken place in the Colorado River. It rose 16 feet in one night.

The Galession Vers, in treating of Mr. Payne's report on the Opelousas Radirosd plan, says that the trade of Galveston with New-York is increasing three times as fast as her trade with New-Orleans, and that a radiroad would be the only means for us to compete with New-York. During the present year, Galveston exported 8,504 bales of Cotton to New-Orleans, and 20,621 to New-York.

We do not see a word, in any of the Texas papers, in relation to Col. Hardee's expedition into the Camarche country.

A private letter from Corpus Christi, dated on the 20th ult., informs us that four Mexicans were recentification.

The same letter informs us that a horrible murder

threatened.

The reports of the crops from almost every part of the State are very favorable, and the country is rapidly filling up with farmers from every quarter.

[N. O. Picayune, 11th.

Court Calendar ... Tsis Day.

Supersion Court — Monday — Nos. 3, 425, 149, 389, 18, 180, 155, 27, 226, 32, 416, 8, 426, 427, 428, 429, 430, 435, 436, 435, 436, 437, 438, 439, 435, 236, 38, 276, 305, 26, 269, 416, 217 SUPREME COURT - Special Term-Published on Superior Court ... THURSDAY, June 20.
Before Judge Mason.

David Gillespie, administrator, agt. Hud-

David Gillespie, administrator, agt. Hudson River Raviroid Co.—The father of plaintiff, while crossing Canal-st. near West. from North to South, on afternoon of 27th May, 1856, a large four-horse car turned into Canal-st. from West, at a quick pace, which Mr. G. not observing, he was knocked down, run over by the car and instantly killed. The car was driven by a voung mun named McKay.

Action is brought by plaintiff as administrator, and one of the next of kin of deceased, under the act of 1847, which permits the heirs or representatives of a person so killed, to bring action where the party husself a not killed, would have had a right to bring action for damages, the amount recovered to be exclusively for the benefit of the widow or next of kin of deceased—the law being amended in 1848, by restricting the damages in any one suit to not over \$5,000.

\$5,000.

It is contended by plaintiff that the car was going faster than it should have done, and was carelessly driven, as the driver had time to warn deceased and also to rein up his horses, but did mether. On the other hand it is contended that the fault was owing o carclessness and mattention on the part of de-cased himself. To be continued on Monday. Scribner & Coolidge against Chas. Mc-

by stopped payment, and assigned to Messrs. If & L.

S. & U. then took back, through the Sherif, as their
swa property, on giving bond, the spirits and gin,
contending that Mr. MeA. knew he was insolvent at
the time of purchasing—and that the sale to him was
void. The present suit is to test the question. To
be continued Monday. HIGHWAY ROBBERIES.—Patrick Moylan

was arrested at an early hour yesterday morning, charged with highway robbery, in knocking down Robert Grundy, in Broadway, near Fifty-first-st, and robbing him of his pocket-book. The assault was witnessed by officer Jackson, of the Nineteenth Ward Police, who arrested Moylan. He was com-

Ward Police, who arrested Moylan. He was committed for examination.

A man, named John Wheeler, was knocked down by a gang of thieves on Thursday evening, in Greenwich, near Liberty-st, and robbed of \$35. Wheeler was found lying in the street, badly bruised, by officer Crawley, of the First Ward, who had him taken to the Bellevue Hospital. The desperadoes escaped.

Baring & Brother's Circular.

Per Nagara. Lonnor, Friday, June 6.

The demand for most articles of Colonial and Foreign produce has been limited, and the tendency of prices again in favor of breyers; within aday or two, however, there has been tess rather pressure to sell, and importers have proferred within away the description of the product of th withdrawing their goods to submitting to forther reduction.

By the official returns of this Beaut of trade for the four months ending 15th ultimo, home consumption appears to proceed satisfacturally. In the Money market we have no material change to notice; the amount of bullion in the final form of the final satisfacturally and the satisfactural returns and fate, by the last return it was £1,35,55,57. The Overland Mail, with advices from Bombay to 3d May, and Calcutta to 26th April, arrived on the 2d inst.

from Bombus to 3d May, and Calcotta to 26th April, arrived on the 2d inst.

Asign—The stock is reduced to 772 barrels Canada of both auts, and 214 barrels United States pot; we quote Canada pot 29c; pearl less; United States pot 37s, 6d.

COCINEAL—The public sales since our last have offered 12c hars, most of which have found buyers, principally finaduras after 28, 13d 64s, 6d., with black at 1s, 3d, 64s, 1d.; rew Mexican black 2s, 4d, 3s, 6d, 3s, 6d. Stock ist inst. 7,711 bogs organist 6,000 bugs in 159c, and 3,515 bogs in 149, at the same period.

Cocca wathout demand, and 400 bugs Trinidad and 200 bugs Bahan in public sale have all been taken in. We quote bugs Bahan in public sale have all been taken in. We quote

at the same period.

Cover, without demand, and 400 bars Trimidal and 200 bars Bahm in public sale have all been taken in. We quote Gremada 268, a.248.; Trimidal 318 6c.12, Brazil 278, a.252.

Coying has been in limited reposet, and transactions this week have been quite unimportant. This public sales have merely offered 34 casks Junacea and 300 casks Ceylon, which partly sold at about former prices. 1,400 bars Native Ceylon were cluster, bought in at 17s, d.5-25, as were also 1,716 bars Bahm from 35s, 326s, while 500 bars Batavis throught 35s. In the Continental ports demand is confined to actual consonation, though there has been rather more doing at Hamburr. The total stock held by the Dutch Trading Company on the 1st matant, was 296, 960 against 450,400 bars on the lat of June last year.

At any Company on the 1st matant, was 296, 960 against 450,400 bars on the lat of June last year.

At any Company there was rather more doing to draw each attempt there was rather more doing to-day. Last week's average price of English Wheat was 386 56; of Earley, 24s 16d; and Outs 25s per qr., the last having advanced fully 1d. We have had nothing doing in Indian Corm in the absence of arrivals; the reports of the appearance of the Fotatose in Ireland are invocable, and there are obsysted for distant cargoes or shipment.

COTYON—We have had sgain a quiet week, the total sales being confined to 450 bales Roat India at the previous value, with 250 bales middling for Boweds at 54d. At Lavergood is fine demand has prevailed, which has been freely not the Matheway and middling Orleans yesterday 2540-54. Which has been freely most by holders; they quoted middling Orleans yesterday 2540-54. Which has been freely and middling Orleans yesterday 2540-54. Which has been freely and the province with 250 bales middling or provided at the previous value, with 250 bales middling orleans yesterday 2540-54. Which has been freely and on this case to the province with 250 bales middling orleans yesterday 2540-54.
